# SUPPORT THE JOB DELEGATE

---

**T-Bone Slim writes that:**

The general construction workers are getting to be so thoroughly organized that there is no need to use any special tactics to get the men to join 310—all the membership has to do is to point out this one fact to the unorganized men, and they will follow suit.

Many of the "unorganized" have an idea that we are a small industrial union—they don't know of all the camps that are solid I. W. W.—but we, the members, can do much in helping the delegate, even before he comes, by putting cardless men "next to themselves" on that score.

We want a perfect organization this summer, and we can't afford to wait for the delegates to do all the work.

Let us ask these men quietly if they have a card—if they have no card, let us ask them if they are organizing another union. Let us ask these men if they are doing anything to better the condition of the workers, and if not, why not? This will help the delegate greatly, in fact, our talk is more effective than the delegate's, if not so fine. Show the men this is no one horse outfit!
