

# Thinking Men Want IWW Labor Union

By T-BONE SLIM

"The working class and the employing class have **NOTHING** in common." Either that stands or I am a donkey.

Gold in Kentucky guarantees hot-cakes for our congressmen indefinitely and there is no good reason for them to risk rupture by rushing to the aid of the forgotten men and women.

No good reason why war debts should not be collected by institution of bankruptcy proceedings and returning the monies to the original Liberty Bond holders as a bonus, and give them funds with which to go on vacation leaving their jobs for the unemployed workers.

According to counterpoint in press their British Majesties' visit was a peace mission, and that universal peace may result therefrom. H'm, England took a run-out powder on Abyssinia, Spain, Czechoslovakia, Albania, and Palestine; so the peace mission may well be mistaken for the death-rattle. Employers rule Britain!

Verily, the employers are incapable of running any country, either politically or industrially.

We have the evidence before our eyes the world over. In USA, just one example: 15,000,-000 more or less unemployed,

unconsoled, unfed, and undraped.

Barbarism was never like this!

Social security retrieves us after we are dead; unionism puts a double chin on us while we are still alive. Have your face lifted in the IWW.

National wealth depends on useful production and is the result thereof. Fifteen million unemployed or doing unnecessary work does not make sense.

\* \* \*

Organize industrially and protect yourself morning, noon, and night.

The IWW is a good deal bigger than its immediate surroundings. The preamble is all meat and bone; result of long years of experience and study. We are the verdict of good, hard common sense;—no more; no less.

Japan and China thin down unemployed like matching pennies. Report: 864,500 Japs, 2,300,000 Chinese bit the dust. (Military economists). Expensive way to slaughter workers.

Times have changed much since wise alecks said, "IWW stands for 'I Want Women.'" Today serious-minded men want industrial unionism—and want it bad.
