

U.S. 10,000 cruiser New Orleans now
commissioned is 588 feet long and car-
ries 590 warriors; One lineal foot per man and
two in the brig.

543 men and 47 officers: One officer to each
11½ men — (and to think, one "bull" and one
"straw" ran a camp of 215 "jacks".
Two cooks and four flunkies.) —

The cruiser has 61 ft. beam — that's not
enough — one to ten.

"Do You — believe in keeping Judaism
and the Jewish people alive?"
Well now, don't you think that's asking too much?
I'm a big hearted rascal and would gladly do so
but, you see, the way is fixed...
Of course, I am in favor of letting them live but
I can't see how they can do it under this sys-
tem. Nossir, it's a case of slow music for all.
