Senate refuses to take Finland's war-debt payment come Saturday? This, hear is because <sup>"the old rancher,</sup> Kallio (Rock), President of Finland, refused to skeddadle from Finland when the Russians paid him a visit last winter."

That isn't it at all, 'twas Mrs Kallio, sez she: "Hey pop, you better stick around or else..." then the radio got the heebie-jeebies and went off in a tangent: "Remember the valley you're leaving."

They floundered round in Flanders Field  
In mud up to their ears...

All for "dear old pluto-ervey" and possible pic a/2 mode (pronounce, pile-o-mud).

Chimerical, what?

Christian civilization (exploitation of man by man),

Western civilization (exploitation of man by man),

European civilization (exploitation of man by man),

ETC., far into the night...

The whole spells CAPITALISM—of by and for capitalists.

Sayeth the hobo as he come mining into the jungles, eating a jelly sandwich: "The dissolution of the parasites racket is taking on proportions that are general and 50 percent complete. The hobo has been and is dispossessed of everything; the employer is now being dispossessed; the State will be dispossessed (as is evidenced by the fate of Belgium, Denmark, France, Holland, Norway and dozen other political units). Japan tells world's leading commercial powers bet-

ter vamoose from China while the goings good—  
Harrimf there goes our markets!"

I wonder where the hoboes get all that high learning? Says he is an ex-chemist.
