

Just As California Came to its Senses  
Fifteen States go Republican.

(5)

Gov. Lehman wins in New York — as goes The Bronx  
so goes the state. Ace-in-the-hole was plurality of  
say 70,000. The job carries with it 65 cent steaks  
and french fried; nothing like the repasts in the Re-  
lief lines and Municipal piers... which all goes  
to prove people feed better than governments.  
"Down to others...." Hm, am I getting sentimental?  
Republicans gain 15 governors and 8 senators  
which seems to prove that even in politics eco-  
nomic considerations, rather than reliefs or reform,  
determine national elections. Cure is what peo-  
ple are groping for. (It doesn't pay to move if all  
houses are alike.) The cure is in economic  
organization, in union halls and not in polling  
places or parliaments — the prize before politi-  
cians is an enslaved, malnourished working  
class regardless of statesmen's personal feelings.  
So if you would be free join the union for busi-  
ness and politics for pastime...  
If you want excitement join the Evander Childs  
football parade.  
Huge majorities means nothing; huge union  
means all.
