

## ***From data to Intelligence - FIN-CLARIAH*** **Roadshow**

Introduction to the infrastructure and to the field of Terminology

**13:00 FIN-CLARIAH Introduction (Eetu Mäkelä)**

13:10 Finding, using and sharing research data via Kielipankki – the Language Bank of Finland (Mietta Lennes)

13:20 Introduction to “Terminology work at Aalto University” (Minna Söderqvist & Antti Susiluoto)

13:30 “How Can I Contribute to the Reliability of Information?” (Nathaly Pinto & Harri Kettunen)

13:50 Q&A

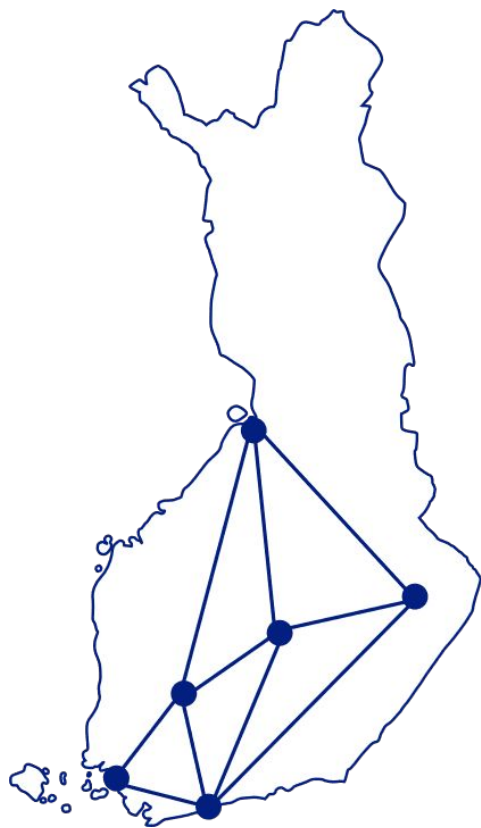

**Tools and application scenarios for terminology engineering, concept aware AI**

14:15 National Ontology and Linked Open Data Infrastructure and Data Services (Osma Suominen)

14:30 Analysis of genre evolution in Finnish fiction literature using BookSampo’s annotated genres (Annastiina Ahola)

14:45 Utilizing annotated keywords for prosopographical data analysis in Sampo systems (Petri Leskinen)

Final discussion

**FIN-CLARIAH**

**Infrastructure for Data-Intensive  
Social Sciences and Humanities Research**

International services, infrastructures and training

National services, infrastructures and training

Individual organisations, local needs and expertise

## Infrastructure for Data-Intensive Social Science and Humanities Research

DARIAH-FI builds and shares tools, datasets, events and training materials for the needs of social sciences and humanities (SSH) in Finland. We are a national network connecting universities, individual research groups and data providers together to facilitate research, especially in the fields of digital humanities and computational social sciences.
