Terms

- Every doctoral thesis includes terms, whether new or already been in use
 - They can be found from the theoretical framework of the study or developed from key words
- What are your important terms?
- Are they already in use in different term banks?
- Role of The Helsinki Term Bank of the Arts and Sciences

A!

Are your terms already existing in any of the relevant term banks in your research field?

Is there a certain term bank in your research field?

If yes and if you can find your terms there:
nothing to be done

(maybe include a sentence of them existing in this and that term bank to your opening words in the doctoral thesis?)

If not

- Is there a term bank used in your area?
- If not, use the HTB
- If HTB used, instructions from the doctoral education hub (aalto.fi Menu Research & Art Doctoral education)
- Doctoral education hub
 - Doctoral research
 - Doctoral thesis
 - Adding key terms to the term bank
 - Quick guide or
 - More detailed instructions how to do in practice
